

INTEGRATED QUALITY AND ENVIRONMENTAL MANAGEMENT POLICY STATEMENT

Cordek Ltd specialises in designing, developing and manufacturing innovative solutions primarily for the construction industry, but also the marine, leisure, display, and film industries, using a wide range of materials and processes. These products demand the highest standards of reliability, performance and finish. The quality of our products and the service we provide plays a key part in the satisfaction of our customers.

Cordek are committed to the concept of continual improvement and have implemented an effective Integrated Management System to meet the requirements of both ISO 9001:2015 Quality and ISO 14001:2015 Environmental Management Standards.

The scope of the Integrated Management System will cover all quality and environmental aspects and impacts associated with our office, yard and factory activities at Slinfold as well as our transport operations. This will be achieved by monitoring the consistency and efficiency of our processes as well as the specifications of our products. Our aim is to continually improve through the application of an audit schedule, legislation reviews and customer feedback.

Cordek has no exclusions, as all parts of the International Standard can be applied to the nature of our organisation and products.

At Cordek Ltd we recognise that the business activities have significant impacts on the environment, therefore we strive towards ways in which we can reduce any negative consequences arising from these aspects and encourage positive controls.

To achieve this commitment Cordek will endeavour to:

- Comply with applicable statutory, regulatory and customer requirements to which the company subscribes.
- Actively work towards and continually improve methods to prevent pollution and protect the environment.
- Set SMART (specific, measurable, agreed, realistic and timely) quality and environmental objectives that are reviewed on a regular basis which are compatible with the strategic direction of the business.
- Carry out Internal Audits and Legislation Reviews to measure the effectiveness of our system and provide a source of recommendations for continual improvement.
- Ensure that processes and information used by the organisation are documented, implemented, reviewed and maintained in accordance with the management standards.

This policy will be reviewed on an annual basis to ensure it remains relevant to all Cordek's operations and services. It will be communicated to all persons working for, or on behalf of the organisation, and is available to the public.

Stephen Hearn
Managing Director
